Santo, TX – SpeedDirect Rod Links™ Clutch Linkage

SpeedDirect's Rod Links™ spherical rod end clutch linkage is now available for select cars, trucks, and Jeeps. This linkage replaces sloppy, worn clutch linkages with a new style, zero free play, rod end bearing linkage.

Rod Links™ are designed specifically for both street and off-road applications. Bearing ends offer more durable components as well as provide very smooth operation. The PTFE-lined bearings require no lubrication and are self-cleaning, so no maintenance is required.

These kits are a simple bolt-on solution for a wide variety of vehicles, including:

- 1955 - 1957 Chevy
- 1963 - 1981 Corvette
- 1963 - 1987 Chevy Truck 2WD
- 1964 - 1988 Chevelle
- 1965 - 1970 Impala
- 1967 - 1981 Camaro & Firebird
- 1968 - 1979 Nova
- 1972 - 1986 Jeep CJ

All necessary hardware to replace the upper and lower pushrods is supplied in the kit. Rod Links™ spherical rod end linkages update your car, truck, or Jeep with better technology and a very clean look.

About SpeedDirect

Pioneers in improved handling for Corvettes and Muscle Cars, SpeedDirect is the manufacturer of Steeroids™ Rack & Pinion Conversion Kits, Shark Bite™ suspension components for C2-C3 Corvettes (1963-82), as well as Vector Series™ handling components for classic Mustangs. In business since 1994, all SpeedDirect products are proudly Made in the U.S.A.
