## Steeroids Rack & Pinion Conversion Kits Now Available With Tilt Columns in 2 Finishes

Steeroids® bolt-on power rack and pinion kits are now available with tilt columns for 1967 - 1969 Camaro & Firebird. 2 column finishes are available: Black Painted, or Unpainted for you to apply the finish of your choice.

Your classic deserves greatly enhanced steering control and improved steering feel. Stock recirculating ball steering is vague and unresponsive, especially "on center".

Steeroids Rack & Pinion kits offer much quicker ratios over the stock, barge-like 4 turn lock-to-lock steering. As an added benefit you get a lighter weight steering system - Steeroids saves up to 25 Lbs. when compared to the stock steering system. It also includes the ability to adjust for bump steer, something most other kits do not accommodate.

All Steeroids kits are an entirely bolt on installation - absolutely no welding, cutting or drilling. Installs with basic hand tools in approximately 6 hours. All Steeroids rack and pinion conversions are complete kits. Included in the kits: Rack & Pinion, Tilt Column, All necessary Brackets, PTFE lined self-cleaning & lubricating Tie Rod Ends, U-joint Assembly, all necessary Hardware & Fasteners, and detailed Instructions. Power Steering kits will reuse the OE Power Steering Pump. Proudly Made In The U.S.A., Five Year Warranty.
